parkingFriendly

19 OCT 2018 / 13:00 / North Town Coffee

Attendees

Gabriel Cabrera, Nicholas Greer, & Michael Mogannam

Agenda

Last Meeting Follow-up

1. AWS is good to go need to familiarize and move HTML/CSS over

New Business

2. leaflet - establishing initial map image and working on adding markers for individualized meters
3. AWS- establishing connection for everyone to access database server

Notes

- **leaflet -** can zoom in enough to put parking meter markers, Figure out if you can tag specific data to individual meter points
- **App vs Website OR both**,
    - learn to build on AWS mobile suite

Action Items

1. AWS mobile
2. AWS ssh login

Next Meeting Agenda

mobile app, can everyone login?
